New Open Space Signs

The district is working on updating the signage throughout the area. This month residents will see that the parks, trails, and open spaces have new signage.

We appreciate everyone's cooperation in adhering to the district rules for these areas.

Residents will also begin to see new Stonegate North Villages community monuments as we enter 2021, a project that will be ongoing for a few months.

District Debuts New Website for Residents

We are excited to debut the district's new website and hope you will take a moment to bookmark it today! The site, which can be found at www.stonegatenorthvillages.org, is built to ensure information is easy for residents to find. The site features our new logo, color palette and brand — as well as photography from around

the district. You'll find meeting information on the home page, as well as news alerts. There is a district map that helps illustrate the borders of the district — as well as links to meeting agendas, meeting minutes, resolutions and the district's budgets and financial information.

The Recreation & Facilities tab has important information regarding the pool season, the tennis courts and the various open spaces throughout

the district. The Links tab highlights information helpful to our newer residents and homeowners, including links to the Stonegate Village Owner's Association, as well as the Stonegate Village Metropolitan District. We've also included information about utilities, as well as the fire and police that service our community. We hope the new site is a refreshing update for everyone and that you'll reach out with any questions or feedback.
