NEWS & ANNOUNCEMENTS

OCTOBER 2024

Stonegate North Villages Metropolitan District Attends the SDA Annual Conference

Several members of the board attended the SDA (Special District Association) Annual Conference, held in Keystone, from September 10-12.

Board member Vicky Strain, Communications Director Jennifer Dulles, and Board President, Jeni Reilly, at the SDA Annual Conference.

The Special District Association is a statewide membership organization created in 1975 to serve the interests of the special district form of local government in Colorado. Special districts fill a vital role in providing many of the basic services and public needs of the people of Colorado, including fire and rescue services, water, sanitation, parks and recreation, hospitals, libraries and cemeteries. Metropolitan and Special Districts are units of local government authorized by Article-1 of Title-32 of the Colorado State Statutes.

Board members attended programming related to fiscal due diligence, waterwise projects, bylaws best practice, and other topics. The district's communications director, Jennifer Dulles, also gave a presentation on how to right-size a communications program for your special district, using the communications work done in Stonegate North Villages over the last four years as a case study.

New Website Platform

The district's website has moved to a new platform which helps the district provide a better experience for those with accessibility needs. The district is proud of its continued work to ensure its website, materials, and facilities meet the needs of our community members.

You can still find us at StonegateNorthVillages.org

Thanks Again!

Thank you for a great pool season.

See a water leak? [Emergency hotline: 720-851-8178](tel:720-851-8178).

Water Restrictions

As the summer wanes, the district is working diligently to make its water supply last.

The Stonegate North Villages Metropolitan District receives its water, and its allocation for use in our parks and open spaces, from Stonegate Village Metropolitan District.

Not unlike many metropolitan areas in drought-prone areas, there is a consistent challenge to maintain an appropriate level of watering, balanced with the planting of native grasses and materials that simply use less. You may notice there are some brown patches across the district as we close out the year, reach our water limits, and work to transition into fall. Please know we work diligently to ensure beautiful grounds in the summer — and are navigating as best we can as we continue to have such warm weather.

If you have feedback about a particular area, please feel free to contact us, as we appreciate your eyes on our community and your feedback.
