STONEGATE North Villages

NEWS & ANNOUNCEMENTS

August - September 2020

Welcome!

Welcome to the newest addition to the Stonegate newsletter! Did you know that there are actually two distinct metropolitan districts in our area?

Historically those two districts have been named Stonegate and Lincoln Park — but as of this month Lincoln Park Metropolitan District is being rebranded and renamed Stonegate North Villages. This new name allows community members who live within this district to celebrate a new name and a new beginning.

The New Look and Feel

Going forward you will see the area formerly known as Lincoln Park referred to by its new name of Stonegate North Villages Metropolitan District. The new name comes complete with a new logo, a new brand and color palette and some exciting plans to roll out the new look and feel to the community.

Why the Change?

Many people have been unfamiliar with the fact that there are two districts. There was both a need and a desire to brand the community in a way that complemented the Stonegate Villages Metropolitan District, while also making sure residents were aware we have our own distinct district, complete with its own board, meetings, financials and amenities.

This Newsletter

Stonegate North Villages Metropolitan District will regularly produce this newsletter insert, letting community members of the district know about upcoming events and important community news. If you have information on an event or material you would like considered for submission please email it to the management team at PCMS by the third Friday of each month.

Update on Trees

This past winter and spring have been challenging for trees along the Front Range. Our very cold October 2019 "first frost," a largely dry winter, and another damaging freeze in mid-April have taken their toll on both evergreens and deciduous trees. Many evergreens were left brown in whole or in sections; some deciduous trees never leafed out or only had leaves on a few branches.

The Stonegate North Villages Metropolitan District professional landscape staff has been reviewing and addressing the health/strength of trees in the open space tracts that did not appear to be in good condition. To date, the team has removed approximately 130 impacted trees, repurposing the mulch in evergreen beds throughout the district.

Any additional updates on tree health will continue to be provided through e-bulletins.

A Reminder

The District Board adopts an annual budget by December 15th of each year for the following calendar year. At this time, the Board establishes the property tax rate and level of fees and charges, if any, for the property within the District. The District relies on the County Assessor's Office for certification of assessed values within the District. The preliminary assessed valuation is received by August 25th of each year, and the final assessed valuation is received by December 10th. The District Board of Directors establishes the property tax rate based on these values.
